SPECIAL PROGRAMS

IB World School, Diploma Programme: The IB Diploma Programme (DP) is an academically challenging and balanced programme of education with final examinations that prepares students, aged 16 to 19, for success at university and in life beyond. IBDP candidates must complete 3 HL subjects and 3 SL courses from Groups 1 - 5. Group 6 is recommended, but not required. IBDP candidates must complete the independent TOK, CAS, and EE requirements. The aim of all IB programmes is to develop internationally minded people who, recognizing their common humanity and shared guardianship of the planet, help to create a better and more peaceful world. IB learners strive to be principled, reflective, open-minded, balanced and reflective.

The Center for Global Studies Magnet: CGS is an inter-district magnet school for grades 9-12, housed within Brien McMahon High School. CGS provides students from Fairfield County schools the opportunity to study Chinese, Japanese, and Middle Eastern culture through language, literature, and history classes. (Please see the CGS Profile at the end for further details.)

Concurrent Enrollment: We offer 9 UCONN Early College Experience courses approved for college credit through the UCONN Cooperative Program. UConn Early College Experience (ECE) provides academically motivated students the opportunity to take university courses while still in high school. ECE instructors, who are certified as adjunct professors by UConn faculty, create a classroom environment fostering independent learning, creativity and critical thinking. ECE students must successfully complete the course with a grade of “C+” or better in order to receive university credit.

STEM Education: BMHS students have the opportunity to take pre-engineering courses as part of their high school program. The Project Lead the Way (PLTW) Pathway to Engineering Program and the McMahon Healthcare Academy (MHA) are designed as a flexible four-year sequence and are taught in conjunction with traditional mathematics and science courses.

Connecticut State Seal of Biliteracy: To attain the Connecticut State Seal of Biliteracy, students’ use of languages must be demonstrated, rather than their knowledge about the language. Students’ must demonstrate proficiency in English and another language by meeting specific criteria. The language performance should be demonstrated in both social and academic use of the language, in all modes of communication.

The ELL (English Language Learners) Program provides classes in English, Math, Science and History. ELL Foundations courses are designed for recent arrivals that have formal gaps in their education.
